

NOTICE: North Bergen Window Hours & Pre-Route Program

Dear Business Partner,

Effective **Monday, September 20th** STG Logistics is changing the ocean import window hours of operation at our North Bergen facility. The new schedule is valid until further notice.

Monday-Friday

6:00 am - 4:00 pm (Last driver allowed through gate – 3:30 PM)

Saturday-Sunday

Closed

As previously mentioned, we do not foresee immediate changes in volume and project congestion to continue through at least the first quarter of 2022. Increasing the speed of the movement of cargo is critical to our operation and we ask for your support in picking up freight as soon as possible once available in our facility. Please communicate the importance of this with your transportation partners or consider using a carrier with an established pre-route program at our facility. The following carriers participate in this program: Estes, A Duie Pyle, JV, Old Dominion, New Penn, UPS, XPO, Forward Air, Freight Connections, ABF, YRC, Air Ground and Saia. Additionally, we encourage our clients to book with us directly via [Quick Quote](#) to have STG deliver your freight to the final destination.

Please contact your sales representative or account manager with further questions.
