

NOTICE: Atlanta Import CFS Recoveries

Dear Business Partner,

In effort to continue to clear the backlog of import cargo arriving at our Atlanta, GA CFS, we request everyone's support in recovering the cargo in a timely fashion. If you need additional support with completing your final mile deliveries, please use our Quick Quote or Delivery Quote options on the www.stgusa.com website. For more details on how to create a "Delivery Quote" please use <https://www.stgusa.com/site/assets/files/1103/delivery-quote-07-08-21.pdf> as a resource. By booking directly with STG Logistics, you will not have to have your trucker wait in line, pay additional storage or driver detention times once your order is confirmed.

We appreciate everyone's support to continue to improve the recovery times so we can make the incoming consolidations available to the importers to pick up. If there are any additional questions, please make sure to reach out to your STG Logistics Sales representative.
