

NOTICE: STG IPI Fuel Surcharge Increase

Dear Business Partner,

Effective April 11th, 2022, our fuel surcharge on all IPI services will increase to 31%. In addition to this increase, we are currently in negotiation with our rail partners on new annual agreements that will go into effect June 1st. We expect a similar increase to last year with fuel remaining a big variable at this point. Further updates to that increase will come out by mid-April.

Please reach out to your local STG contact with any additional questions.
