

NOTICE: Union Pacific Service Update

Dear Business Partner,

The Union Pacific Railroad ICTF Ramp in Long Beach, CA is experiencing 1-2 day origin delays due to car shortages and congestion. The issue is impacting loads to the following markets:

- El Paso
- Houston
- Kansas City
- Laredo
- San Antonio
- St Louis

The Union Pacific is doing a re-plan of traffic into and out of the LA basin which goes into effect in early July to help alleviate the issues.

Please reach out to your local STG contact with additional questions.
